

# Comparing the Compromises

## The Compromises of 1820 and 1850

### The United States in 1810

- 1.) How many states existed in 1810?
- 2.) How many territories?
- 3.) Look at what is now Alaska in the bottom left of this map. Why do you think its called "Russian America?"

### The Compromise of 1820

- 4.) Examine this map closely. What two states were added in the Compromise of 1820?
- 5.) How many total states are there in 1820?
- 6.) How many states are slave states? Free states?
- 7.) The Compromise of 1820 established the Missouri Compromise Line (southern border of Missouri). By looking at the Arkansas Territory and the "Unorganized Territory," make an assumption about what the purpose of the Missouri Compromise Line was.

### The Compromise of 1850

- 8.) List at least 5 changes that occurred between 1820 and 1850.
- 9.) How has the number of slave and free states changed from 1820 and 1850?
- 10.) What two things happened to the Arkansas Territory? (Look closely at the boundary lines)
- 11.) What new states were added in 1850?
- 12.) How are the Utah and New Mexico territories different from the other states and territories?
